

508 East 58th Street

New York August 24 1909

Dear Father Landell

A long while ago I received a draft from you of \$100 which I turned over for storage on cases and took them. I have not been able to do anything yet about sending them to you. Outside of putting iron straps no other packing seems necessary. We have had so many drawbacks from sickness + bad business that have had no opportunity for other work. Expect that affairs will improve after

2/ September but nothing
can ever be foretold.
Mrs Tamagus is now
in the Hospital where
she gave birth to a daughter
whom we expect to call
Claire Louise She was
born on August 19th
unless some complication
sets in we expect both
mother and daughter
to get well and return
here in September.

I did not understand
the description given
as to catalogues, which
you desire, but will
enquire for whatever may
be obtained in the way

3) of scientific or
laboratory ~~apparatus~~
apparatus. If there is
any specific & clear
name to any articles
kindly state them
by usual name
given.
Yours Sincerely
Daniel B Tawaguo

PS

Paul is now in good
health & will be
five years of age on
October 21st
