① One leather valise

2 leather handles Long Wide High
20 inches X $8\frac{1}{2}$ inches X $11\frac{1}{2}$ inches

① One box

Long Wide High
23 inches X $10\frac{1}{2}$ X 13 inches

① One box

Long Wide High
 $31\frac{1}{2}$ X 16 X $9\frac{1}{2}$ inches
inches

no cover to this box - Contents can be
seen to be ① One black box + numerous articles

① One box

Long Wide High
 $34\frac{1}{2}$ X 20 X 15
inches inches inches

no cover to this box - as in other
box all full of numerous articles

① One trunk

Long Wide High
 $53\frac{1}{2}$ X $14\frac{1}{4}$ X $12\frac{1}{2}$
inches inches inches

The end of this trunk broken + rotten can not
be used - contents in bad order that is papers are
spoiled by moisture Metal articles apparently
not ruined All packages except this one
from outside inspection seem to be in good order

2) That all metal articles that may not be subject to rust are probably all There, articles which suffer from dampness are probably not in good order.

These packages as enumerated are all the packages as far as my knowledge goes which existed. In case These packages have to be shipped They would have to be repacked in new cases.

- I am endeavoring to obtain capital to begin the manufacture of a tree faucet to be applied to tree cans. It is more than doubtful if I am successful I have a patent allowed me for it and if I am able to establish a metal manufacturing business will take up also any other occupation which may be to my advantage as there is very little profit to be made alone in this faucet which will have to be sold for about $3\frac{3}{4}$ cents each. However it is very superior to any other device and represents my own labor and ideas exclusively with no help and no assistance from any other human being on earth.

If I do not succeed to obtain capital by Jan 1st 1913 I will be utterly at loss for means to gain a livelihood.
