São Paulo, August 16. 1906.

Dear Mr. Daniel Tamagno,

Received your letter today.

I remain most regretful of that you said my about your business, and presenting to you and to Mrs. Tamagno my best regards, I hope you will be able to give a new push to your affairs.

My Bishop is dead at the shipwreck of the "Sirio", and now am expecting the nomination of the new Bishop to resolve about my travel. On account of this I think that it is better to send the boxes to Brazil; ^{if} ^{their} you cannot more retain ^{their} with you.

And in this case, you will give their this address:
"R. Landell - Bonnil - S. Paulo." with the
declaration that the boxes are including
used physical apparatus and clothes.
The trunk must be reinforced by ^{iron} bows,
and the objects of the boxes, must be
packed most carefully in other suitable
boxes.

With the bill of lading, please to
send ^{the} note of the expenses.

If it will be facultative to pay here
or there the freight, I prefer to pay
there here.

Enclosing you ^{sent to you} will find a list
of men in order to know if it
is commercial and in which
conditions, and how cost the
telegram.

Caro Mr. Daniel Tamagno

Recebi sua carta hoje. Eu fico muito pesaroso do que você me disse sobre o seu negócio, e presentemente para você ^e para Sra. Tamagno minhas maiores considerações, eu espero que você será capaz de dar um novo impulso nos seus afazeres.

Meu Bispo está morto no navio no naufrágio do SÍRIO e agora eu estou esperando a nomeação de um novo Bispo para resolver sobre minha viagem. Por conta disso eu penso que é melhor enviar as caixas para o Brasil, se você não pode mais reter consigo. E neste caso você dará este seu endereço: R. Landell - Brasil - São Paulo, com a declaração que nas caixas estão incluídos aparelhos usados de física e "clothy". (...)

Com a conta do frete, por favor, mande a nota das despesas.

Se isto for facultativo pagar aqui ou lá o frete, eu prefiro pagar aqui.

Incluindo, envio para você substância de mica a fim de saber se é comercial e em qual conveniência e quanto custa o kilograma.

The end of this trunk broken + rotten can not be used - contents in bad order that is papers are spoiled by moisture Metal articles apparently not ruined All packages except this one from outside inspection seem to be in good order

2) That all metal articles that may not be subject to rust are probably all There, articles which suffer from dampness are probably not in good order.

These packages as enumerated are all the packages as far as my knowledge goes which existed. In case These packages have to be shipped They would have to be repacked in new cases.

- I am endeavoring to obtain capital to begin the manufacture of a true faucet to be applied to the Cans. It is more than doubtful if I am successful I have a patent allowed me for it and if I am able to establish a metal manufacturing business will take up also any other occupation which may be to my advantage as there is very little profit to be made alone in this faucet which will have to be sold for about $3\frac{3}{4}$ cents each. However it is very superior to any other device and represents my own labor and ideas exclusively with no help and no assistance from any other human being on earth.

If I do not succeed to obtain capital by Jan 1st 1913 I will be utterly at loss for means to gain a livelihood.
